EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Vazken Alexanian, Reg. No. 37,270, on behalf of Charles Ruggiero on 4-13-06.

The application has been amended as follows:

Claims 1 – 17 have been cancelled.

Claims 33 and 34 have been cancelled.

The following is an examiner's statement of reasons for allowance: the combination of a hydrocarbylene and triol with diols and both mono and di-carboxylic acids to form the polyesteramine of instant claims is not known in the art. Further, a composition containing this polyesteramine is not known or suggested. Although polyesteramines are known, they are not known to be made with triols and hydrocarbylenes (note that the structure of instant claims requires the use of a triol as a reactant in making – see the specification for details). In addition, the structure of the polymer required by the claims is not known, nor is there any suggestion in the art to modify the structure of known polyesteramines to arrive at the structure required by instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
